## EDUCATION

- King Khaled Internationasl School** 2022  
Graduated High school, Riyadh Saudi Arabia CGPA/Percentage: 4
- Istanbul Aydin University** 2022  
1 year of software engineering, Istanbul Turkey CGPA/Percentage: 3
- Gisma University of applied sciences** 2023  
Software engineering bachelor's with foundation, Potsdam Germany CGPA/Percentage:4

## EDUCATION EXPERIENCE

- Katib Yasin School** 2013–2015  
student Algeria  
– French education in Algeria followed by my biggest achievement of the third rank in my school after an official test in 5th grade  
– Culture, life experience, and a new language (french) changed my overview about the world. Thus, making easier for me to discover more under pressure
- Istanbul Aydin University** 2022–2023  
bachelors student istanbul  
– Even though I studied for a year in this university, they provided us with a huge practice and practical projects over programming languages such as C and Java  
– The new country and living abroad taught me many lessons such as adapting to new environments and learning a new language
- Gisma University of Applied Sciences** 2023–2027  
bachelors student with foundation germany  
– moving to a new country is a hard process, yet Germany has the best education system. We covered a variety of computer languages and alot of practical work plus personal effort is needed  
– The languages we covered: HTML, CSS, java, python, Latex, Linux, SQL and more to come.

## PERSONAL PROJECTS

- Grading System** 2022  
Project description(creating an automatic grading system)  
– Tools & technologies used: C language,Vscode  
– More description on the project( In order to make it easier by having an array table and entering the data of grades, then automatically showing the grading system and GPA based on the average)
- Art gallery website** 2022  
Project description(a page where I could sell my art pieces. )  
– Tools and technologies used: HTML, CSS, Vscode  
– More description on the project( Pictures of the artworks are shown, prices are under, and the contact button is available. )
- App for organization** 2022  
This application building process is still ongoing, the idea is to make a human friendly application that can enhance ones life  
– Tools and technologies used: HTML, CSS, Javascript  
– More description on the project(A very nice looking aesthetic application for users who love keeping up with a schedule)

TECHNICAL SKILLS AND INTERESTS

**Technical Skills:** Programming experience with: C, C++. Java. JavaScript, Python, SQL, LaTeX, HTML, CSS

**Soft Skills:**Project Management, Presentation skills, Adaptability, Problem solving, competitive

**Field of Interest:** Software engineering, Computer science, game development, and Front end development.

**Hobbies:** Painting, ballet, gym, all types of physical activities helped me maintain discipline, time management, and organization within my daily life

LANGUAGES AND BACKGROUND

• <b>Arabic</b> Native language	<i>B2</i>
• <b>English</b> Advanced	<i>B1-B2</i>
• <b>German</b> Intermediate	<i>B1</i>
• <b>French</b> Medium	<i>A2-B1</i>
• <b>Turkish</b> knowledgeable	<i>A2</i>

ACHIEVEMENTS

- **Math, French, Arabic exam** scored 97/100 in 5Th grade official exam and achieved the 3rd rank in my school *2015*
- **SAT** scored 1340/1600 in the Scholastic Aptitude Test *2021*
- **High school GPA** Scored 97.8/100 in my last year which is equivalent to a GPA of 4 *2022*
